33312	12	48"	12"	660'	1248-12-660	333 lbs.
33311	10	60"	12"	660'	1060-12-660	305 lbs.
33310	9	49"	12"	660'	949-12-660	266 lbs.

The spacing of the Line Wires will vary according to the end use. Generally (but not always) the spacing is narrower at the bottom, and increases in size towards the top of the fence. This is designed to keep smaller animals in or out of the fenced area. The Stay Wires (vertical wires) are most commonly spaced 6" or 12". Here are some common examples of the spacing →

Wire Specifications

Wire	Gauge	Tensile Strength Grade	Minimum Breaking Strength	Minimum Zinc Coating
Line Wire	12 1/2 GA	175K	1360 lbs.	.85 OZ Zinc/sqft
Stay Wire	12 1/2 GA	125K	960 lbs.	.85 OZ Zinc/sqft
Knot Wire	13 GA	60K	350 lbs.	.85 OZ Zinc/sqft
